Re: SB 636

Dear Senator ~~Nofs~~ and Committee Members:

I have serious reservations concerning SB 636. I am concerned about Michigan's most vulnerable citizens, the elderly and residents in more rural, out-state Michigan. Calling 911 or placing a call from someone's home to an emergency room or a hospital is of paramount importance to every citizen of Michigan. I would encourage the legislature to thoroughly review every detail of this proposed legislation in the remaining days of the Senate and House session.

Sincerely,

Bill Schuette
Attorney General

Thanks Mike for an discussion!
